Browse to the download folder in your Desktop/PC setting and look for **cas-mobile-dashboard.apk** in the downloads list.

This confirms that the APK was successfully downloaded. The next step is to install the APK in your phone.

B.2 Installing ICDS-CAS Mobile Dashboard

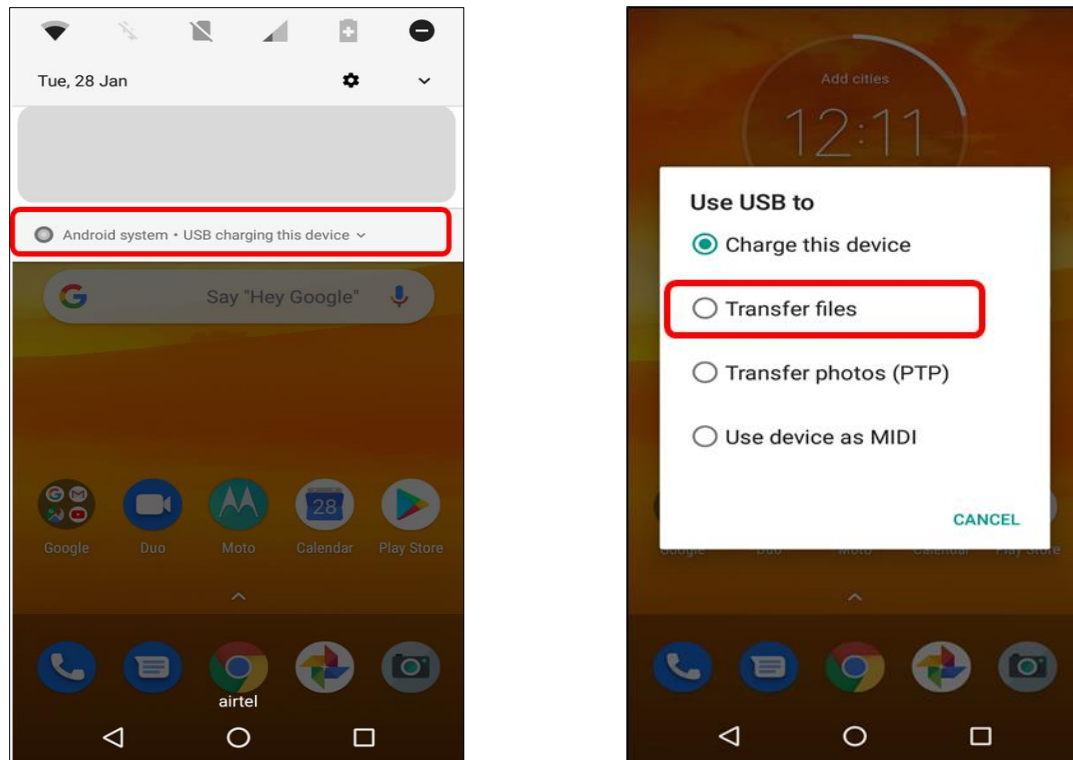

Transferring Mobile Dashboard APK to your device

After downloading the APK on your system, the next step is to transfer the Mobile Dashboard APK on your device for which you will need a USB chord.

Connect your phone with the laptop/desktop using the USB chord. Connect the other end of the USB chord to your laptop/desktop

After you've connected your phone with your laptop, you will get a notification on your mobile phone from the android system, tap on the notification. It will open a "Use USB to" options box, click on the *Transfer file* option.

Doing this will open the phone's folder on your system/laptop with the "Internal storage" folder. Copy the downloaded APK, from the downloads folder to internal storage > downloads folder of the phone

Installing Mobile Dashboard APK to your device

After the user has transferred the APK on the mobile phone,

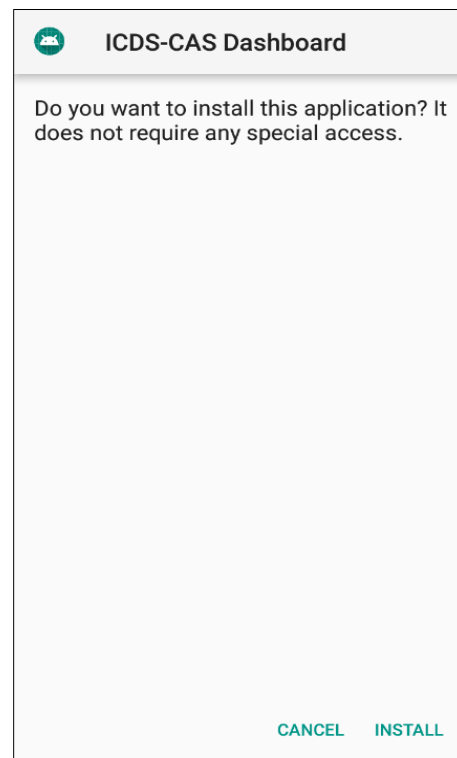

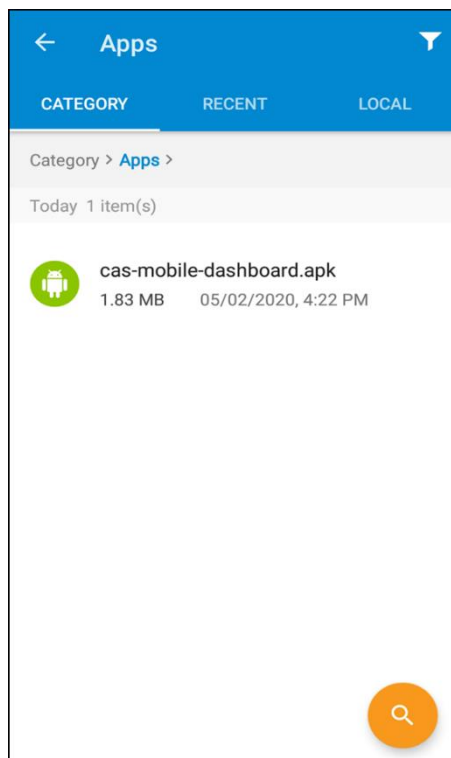

1. Open "File Manager" in the phone and navigate to the folder containing the APK. Open the APK to initiate the download

Note: We recommend using the native android file manager as oppose to third party file managers like Amaze file manager. Users might encounter technical difficulties while downloading APK from third party file managers

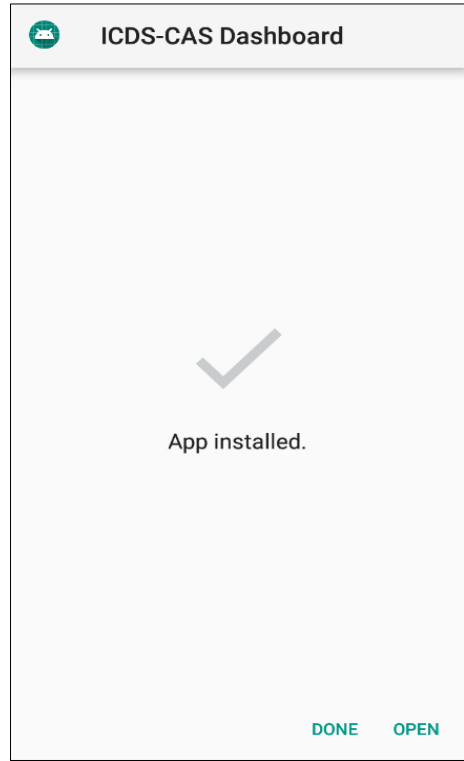

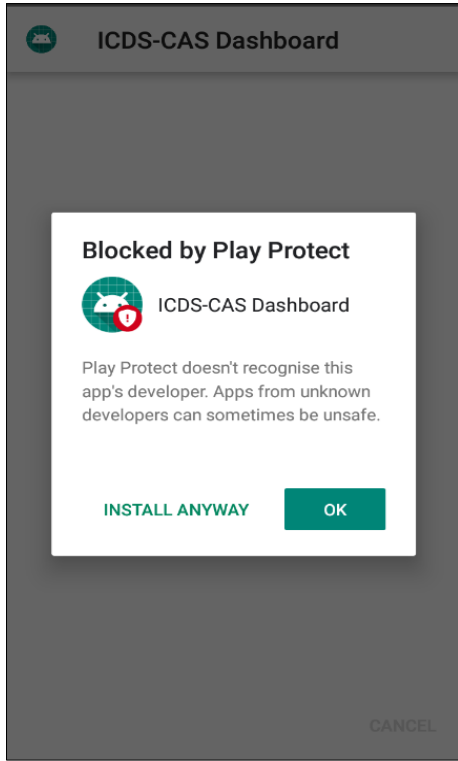

Note: Ensure that unknown sources box function in your device's setting is checked to allow app installations via APK.

2. Clicking on the APK will display a screen with a question - "Do you want to install this application? It does not require any special access". Click on the install option to initiate the installation

3. The user may be prompted before installing the mobile dashboard if the android mobile phone is protected by the play store. Click on *INSTALL ANYWAY* and proceed
4. Wait till you receive installation confirmation and then click on "Done"

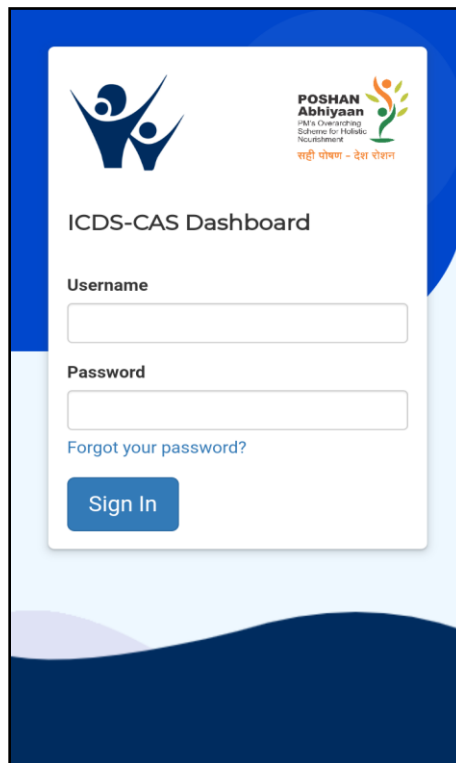

B.4 Logging in ICDS-CAS Mobile Dashboard

Click on the Mobile dashboard app installed in your phone.

On opening the app,

1. You will be prompted to sign in
2. Enter the dashboard username and password as communicated to you (same as the web dashboard)
3. Click on "Sign in"

The image displays the login screen of the ICDS-CAS mobile dashboard. The screen has a blue header with the ICDS logo on the left and the "POSHAN Abhiyaan" logo on the right. The main content area is white and contains the text "ICDS-CAS Dashboard". Below this, there are two input fields: "Username" and "Password". A link "Forgot your password?" is located below the password field. At the bottom, there is a blue button labeled "Sign In". The background of the app is a light blue gradient with a dark blue wavy shape at the bottom.
